Data Governance Modernization Foundation

Everything you Need to Seamlessly Migrate Your Business and
Technical Assets into the Cloud

Where data & AI come to **LIFE**[™]

On-Premise Data Governance and Catalog modernized and cloudified

The Data Governance Modernization Foundation Package jumpstarts the process of migrating and modernizing On-Premise Informatica systems, Axon Data Governance/Data Marketplace and Enterprise Data Catalog (EDC), into a single, unified scalable Informatica Data Management Cloud (IDMC) platform, empowering your organization with enhanced agility, increased efficiency and cutting-edge cloud capabilities.

-  **Bring All your Business and Technical Assets Together**
Unlock the power of a unified cloud environment with the IDMC platform, designed to seamlessly integrate and connect diverse metadata assets in one centralized hub.
-  **Built-in Advanced Capabilities**
Experience enhanced functionality with IDMC's comprehensive suite of built-in tools, including Data Quality, Data Profiling and more. Enjoy all the trusted features of your legacy systems fully preserved and supercharged for the cloud era.
-  **Seamless Migration with Metadata and Customizations Intact**
Migrate virtually all your Data Governance assets, metadata sources, enrichments and customizations into Cloud Data Governance and Catalog (CDGC) effortlessly, ensuring continuity without compromise.
-  **Accelerate Modernization with Smart Automation**
Leverage Informatica Modernization Utility tools that automate key migration steps – reducing manual effort, speeding up your transformation and cutting costs, all while minimizing tedious and repetitive tasks.

How It Works

Our advisory and product experts conduct an assessment and kick-off workshops, determine the current state and identify the scope of the modernization. Solution experts analyze use cases, configure IDMC, CDGC and CDMP (if applicable) and execute the migration of the assets and enrichments.

“Our investment in Informatica Data Management Cloud has proven its value in so many ways, and we are only a quarter of the way through our cloud migration.”

- Lee Rosenfeld
ETL Integration Architect

What You Get

- Scope definition
- Modernization approach considerations with tier size recommendations and guidance
- Estimated plan, roles and efforts guidance
- Fully modernized Data Governance and Catalog content
- Modernization process documentation
- Knowledge transfer and best practices
- Directions for the next phase of implementation

| Catalog Item | Included |
|---|----------|
| Axon Assessment | ✓ |
| EDC Assessment | ✓ |
| CDGC Modernization Utility Deployment | ✓ |

| Axon Business Assets Migration Execution - Tier 2 | ✓ |
| Axon Business Assets Migration Execution - Tier 3 | ✓ |
| Axon Data Marketplace Migration | ✓ |
| EDC Migration Execution - Tier 1 | ✓ |
| EDC Migration Execution - Tier 2 | ✓ |
| EDC Migration Execution - Tier 3 | ✓ |
| EDC Custom Scanner Migration Execution | ✓ |
| Data Governance Modernization Knowledge Transfer & End User Documentation | ✓ |

**Informatica will work with you to complete a Modernization Assessment. Based on the assessment findings, Informatica will recommend the applicable catalog item(s) from the above list that will address your modernization strategy needs.*

Add-on Training Benefits

Our comprehensive product training equips your team with the skills needed for efficient data management for successful implementation. Training is delivered by expert instructors in a virtual classroom setting, with a tailored plan to maximize productivity. 50 Professional Services Units for product training are recommended to support the Data Governance Modernization Foundation implementation. Your Education Specialist will help you determine the best training plan for your team.

About Us

Informatica (NYSE: INFA), a leader in enterprise AI-powered cloud data management, brings data and AI to life by empowering businesses to realize the transformative power of their most critical assets. We have created a new category of software, the Informatica Intelligent Data Management Cloud™ (IDMC), which manages the entire lifecycle of data and interoperates with everything. It is an end-to-end data management platform, powered by CLAIRE® AI, that connects, manages and unifies data across virtually any multi-cloud, hybrid system, democratizing data and enabling enterprises to modernize their business strategies. Customers in approximately 100 countries and more than 80 of the Fortune 100 rely on Informatica to drive data-led digital transformation.
