MDM SaaS - Professional Services Units Design Support Package

Future-Ready Informatica Success

Where data & AI come to **LIFE**™

Build a High-Performing Informatica Solution with Confidence

Enhance your organization's capabilities with our Design Support Package, designed to deliver best-in-class architectural guidance, strategic insights, and industry-leading practices for a robust, scalable, and optimized Informatica implementation.

Why Choose Our Design Support Package?

World-Class Architectural Expertise

- Benefit from the unparalleled experience of Informatica Professional Services (IPS) consultants.
- Develop a flawless, scalable architecture uniquely tailored to your business needs.

Strategic Design Reviews & Best Practices

- Anchor your implementation in industry-leading standards.
- Engage in expert-led design assessments for recommendations and optimization strategies.

Risk Mitigation & Performance Optimization

- Proactively identify and resolve potential bottlenecks and inefficiencies.
- Ensure a seamless, risk-free deployment process.

Tailored Guidance & Seamless Collaboration

- Collaborate closely with our seasoned consultants and your internal and partner teams.
- Receive personalized guidance and technical expertise to drive your project forward.

Future-Proof Your Implementation

- Construct a scalable, resilient Informatica solution that grows with your business.
- Maximize your return on investment (ROI) with enduring performance.

Achieve Flawless Execution

- Our Design Support Package empowers your team to build confidently, deploy efficiently, and scale effortlessly.

“Informatica gives us critical insight to help ensure that we are very accurate and understand the risks we’re underwriting.”

**– Louis DiModugno
Former SVP, Chief
Data Officer, HSB**

◆ Optimize Performance ◆ Accelerate Deployment ◆ Maximize Business Value

Let's Build Something Exceptional Together

-  **Risk Mitigation & Proactive Troubleshooting**
Detect and resolve design challenges and implementation risks proactively, safeguarding your project timeline.
-  **Integrated Team Collaboration**
Partner seamlessly with Informatica to integrate into your team to ensure success.
-  **Empower Your Implementation with Confidence**
Trust our Design Support Package to architect Informatica solutions that deliver long-term success and maximize your return on investment (ROI).

◆ Enhance Performance ◆ Accelerate Deployment ◆ Reduce Implementation Risks

Ready to Optimize Your Informatica Design?

How it Works

By engaging directly with your core implementation team, Informatica provides expert architecture, solution design and configuration reviews, ensuring alignment with industry best practices.

Our IPS experts actively participate in the following key solution areas:

- **Architecture Review** – Evaluate system architecture for enhanced scalability, security, and peak performance.
- **Solution Design Validation** – Assess and refine design strategies to align with best practices and business objectives.
- **Configuration & Optimization** – Review system configurations and settings to enhance efficiency and reliability.
- **Performance Tuning & Troubleshooting** – Proactively address potential bottlenecks to ensure seamless performance.
- **Data Integration & Governance** – Ensure data quality, security, and compliance across all Informatica solutions.

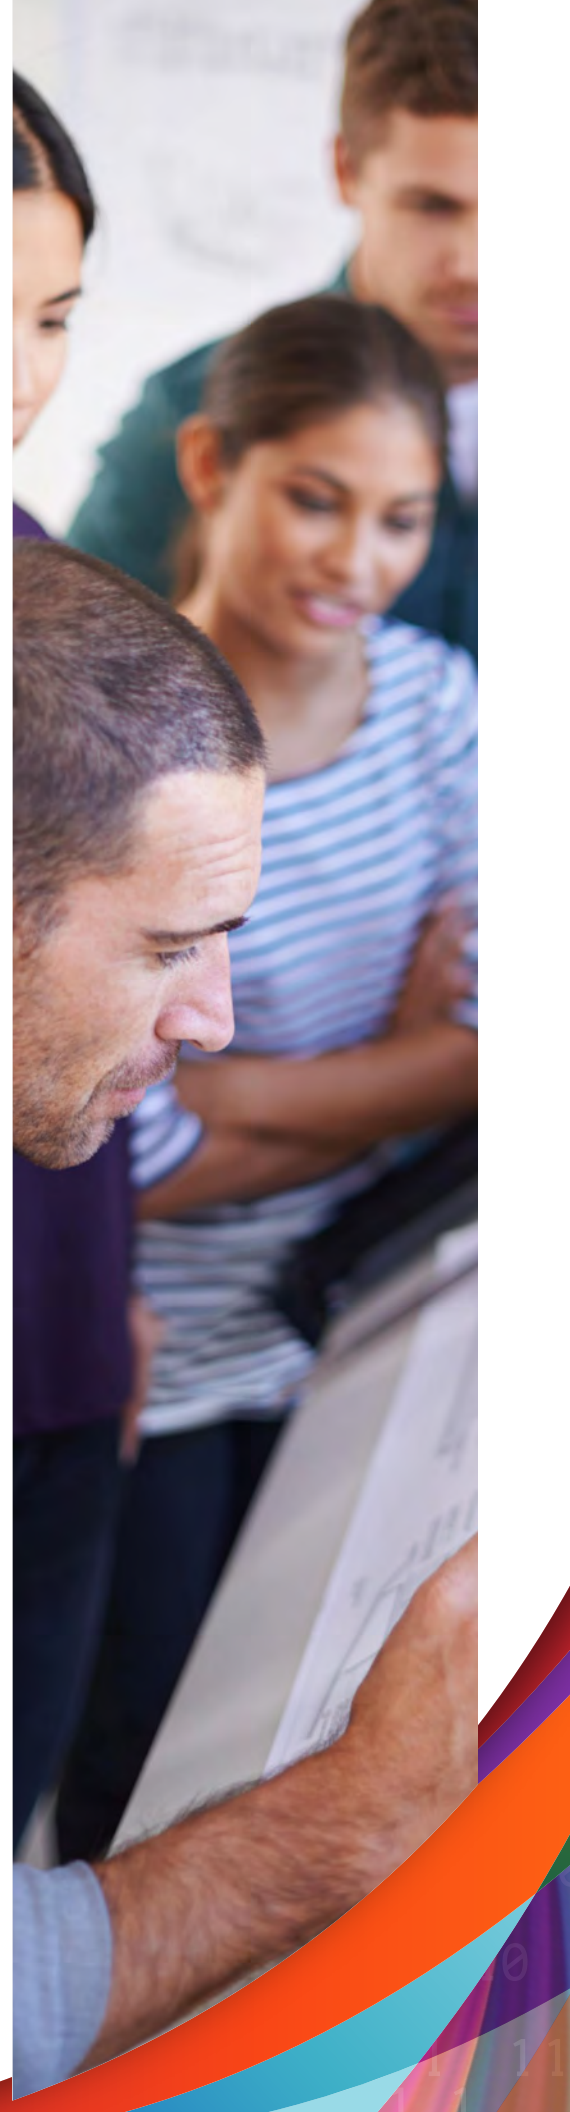

With the Design Support Package, unlock expert-led insights to streamline implementation, mitigate risks, and maximize success.

Contact us today to learn how IPS can help optimize your Informatica solution.

What You Get

- Architecture and design sessions providing guidance on best practices to reduce implementation timelines and improve solution agility and extensibility
- Interviews and working sessions conducted by Advisory Services to address business adoption, change management, as well as strategy and future roadmap
- Design reviews of the following components, as required:
 - Ingress and egress strategy review and refinement
 - CDI and CDQ best practices for Ingress and Egress
 - Match tuning guidance
 - Trust and survivorship design support
 - Hierarchy configuration guidance
 - CAI design and configuration review
 - Business events process
- Overview and demonstration of key solution features
