

Informatica Intelligent Cloud Services for Salesforce

Key Benefits

- Powered by the market-leading Integration Platform as a Service (iPaaS)
- Connect any Salesforce Cloud to external cloud and on-premises data and applications rapidly and with zero code
- Leverage any user: application developers, citizen integrators, ad hoc integrators, business analysts
- Bring trusted data from cloud, on-premises, social, and big data sources to every Salesforce Cloud

The Leading Enterprise Cloud Application Integration and Data Management Solution for Salesforce

Over 7,000 organizations are using Informatica Intelligent Cloud Services (IICS)SM to integrate Salesforce® with applications and data residing on external clouds and on-premises. With such integrations, businesses can automate business processes and bring clean, trusted data from cloud, on-premises, social, and big data sources to every Salesforce Cloud. These also empower business users, admins, and IT to achieve faster time to value across their Sales, Service, Marketing, Commerce, Analytics, and Platform initiatives.

Tame Salesforce Data Complexity

Informatica's role-based solutions cover every Salesforce data use case for cloud integration, cloud data quality, cloud test data management, and 360-degree customer visibility at proven scale. With over 8 trillion cloud transactions processed monthly—all powered by Informatica's market-leading Integration Platform as a Service (iPaaS)—IICS helps you better engage with your customers and realize the potential of your Salesforce investment.

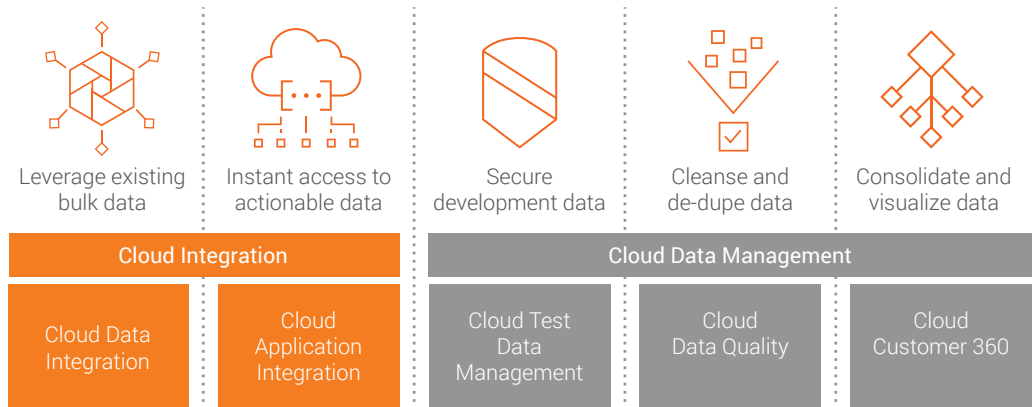

Leverage Your Salesforce Data With Ease

IICS enables you to easily connect to a variety of cloud and on-premises applications and data to ensure that you can automate your business processes and efficiently share your relevant and trustworthy Salesforce information.

Informatica cloud API, application, and data integration services also go beyond traditional point-to-point integration vendors by offering the most complete suite of cloud integration for any data, any user, and any pattern, including batch and real-time, B2B, integration hub, customer 360, data quality, master data management, data catalog, and more.

Informatica for Salesforce

Most comprehensive coverage in the industry

Unleash the Power of Your Intelligent Data

IICS connects any Salesforce Cloud to external cloud and on-premises applications rapidly, leveraging hundreds of pre-built native connectors. Informatica Cloud Test Data Management, Cloud Data Quality, and Customer 360 for Salesforce secures, cleans, and unifies your data for any Salesforce Cloud. And the Informatica Cloud Integration Hub provides an alternative “publish/subscribe” approach to simplify and optimize data integration in organizations with a large number of end points, or multiple Salesforce orgs, that need to share information.

Sales Cloud

Accelerate sales momentum, increase agility, and reduce operating costs by synchronizing your Sales Cloud front office with your back office such as SAP, Oracle EBS, or NetSuite.

Service Cloud

Build customer loyalty and deliver exemplary customer service by unifying your data into a 360-degree customer view. Integrate your customer applications and data with legacy systems to close the loop in real time and become a true customer- and data-driven company.

Marketing Cloud

Connect Marketing Cloud to any external data source and also automatically clean and validate the external data for more accurate customer targeting and higher ROI campaigns.

Einstein Analytics and Tableau

Bring clean, relevant data from all of your key business systems together into Einstein Analytics and Tableau to provide trusted, accurate data for self-service analytics.

About Informatica

Digital transformation changes expectations: better service, faster delivery, with less cost. Businesses must transform to stay relevant and data holds the answers.

As the world's leader in Enterprise Cloud Data Management, we're prepared to help you intelligently lead—in any sector, category, or niche. Informatica provides you with the foresight to become more agile, realize new growth opportunities, or create new inventions. With 100% focus on everything data, we offer the versatility needed to succeed.

We invite you to explore all that Informatica has to offer—and unleash the power of data to drive your next intelligent disruption.

Commerce Cloud

Enable real-time commerce solutions to seamlessly connect to business services such as tax systems, address validation inventory, and shipping to provide a complete commerce solution.

Salesforce Platform

Extend custom apps built on the force.com platform to easily connect with external cloud or on-premises applications and data sources. Automatically provision sandboxes with the right test data in minutes, freeing your developers to spend more time innovating.
