

UK ADDRESS DATA STATEMENT OF INTENDED USE

Please indicate how your organization intends to use United Kingdom address data with Informatica Premium Address Cleansing ("Address Verification"):

	0	1-20	21-60	61-300	More than 300
How many people in your organization will you authorize to access UK address data, either directly through Address Verification or through another product that uses Address Verification when it receives an address?					

	Yes	No
Will you use UK address data to verify addresses in interactive mode when entered by customers on your external website?		

Please send an updated form to your account representative or DaaSreporting@informatica.com if the answers above change.
