

Cloud Adoption Hybrid Master Data Management Success Pack

Benefits

- Get Expert 1-on-1 Guidance
- Apply Best Practices while working on your implementation
- Kick start your development cycle from the get-go
- Shorten your enablement lifecycle using our “Do it with me” approach

The Hybrid MDM Success Pack provides accelerated implementation, best practices and a quick start for Hybrid MDM initiatives.

A complete master data management solution addresses the critical business objectives digital organizations face. Cloud and On-Premise technologies provide new possibilities along with complexity. Our full certified experts can guide you through the key components of your Informatica Hybrid MDM project and impart their knowledge to ensure your project is a success.

- Optimally configure Cloud Customer 360 (CC360) for Salesforce and Multi-domain MDM (MDE)
- Receive expert help to ensure best practices are followed
- Achieve a Go-Live on time and on budget

Hands-on Help from Hybrid MDM Experts

Work with a dedicated Customer Success Architect (CSA) to achieve following objectives:

- Successful configuration of MDE and CC360 to enable point of entry search in SFDC against the MDE Hub
- Real-Time bi-directional data syncs to ensure data consistency
- Learn optimization techniques for specific use cases

Deliverables

- Best practices and optimal configuration specific to customer needs
- CC360 search MDE Hub before create in SFDC*
- Real-Time data sync between MDE and SFDC
- Multi-domain MDM Configuration**
 - Up to 2 base objects
 - Packages / Queries / Triggers
 - SIF or Business Entity
 - JMS
 - Match Rules

ABOUT INFORMATICA
