

# Data Quality Dashboard and Reports Foundation

## Benefits

- Increase your knowledge of Informatica's Data Quality Dashboard and Reports Option with access to professional expertise and documented best practices
- Discover the readiness of your data for diverse projects and improve the quality levels of your key data attributes
- Develop simple data quality reports and discover the means to create custom metrics
- Provide Enterprise Business Intelligence reporting for data quality metrics
- Distribute dashboards and reports to create a wider organizational awareness of your data quality initiatives and aggregate data for cross organization and data entity Data Quality reporting

## Typical Duration

- 3 Weeks

## IPS Staff Level

- Senior Consultant

## Jumpstart Your Data Quality Metrics Tracking

The Data Quality Dashboard and Reports Foundation engagement will jumpstart the development of dashboards and reports tracking data quality metrics. These reports offer drilldown and trending capabilities that can be utilized when monitoring your enterprise data quality initiatives. During this engagement you will benefit from the knowledge and experience of Informatica Data Quality professionals, learn to report and analyze the quality of your data toward your specific projects and goals and build data quality dashboards and reports that can be leveraged throughout your organization.

## Key Program Deliverables

- The Informatica Data Quality Consultant will install the provided star schema and lead workshops to assist with customization of the schema to meet business needs.
- Install provided data quality mappings to measure and cleanse customer and address data.
- Where applicable, JasperSoft software will be installed, configured and connected to the schema that holds your Informatica Data Quality results.
- Initial data quality dashboards and reports that display the key quality characteristics of your data and track improvements in your data's quality over time.
- Establishment of a dashboard and reporting framework to track the progress of data quality initiatives and the potential impact throughout the organization.
- Concrete recommendations on how to leverage the Data Quality Dashboard and Reports Option to effectively manage and monitor data quality initiatives across your organization.

## Key Program Details

With our Data Quality Consultant, you will accomplish the following:

- Where applicable, initial installation of Informatica Data Quality Dashboard and Reports Option (JasperSoft) within your environment.
- Learn about Informatica's data quality methodology and best practices for leveraging JasperSoft in conjunction with Informatica Data Quality in order to monitor data quality metrics.
- Document "Next Step" reporting strategies that should be addressed within your organization.

## Prerequisites

This engagement assumes the previous completion of an Informatica Data Quality Foundation engagement and/or the Informatica Data Quality Audit engagement. Additionally, our Data Quality Consultant will need:

- Access to applicable business and IT personnel
- Installation and configuration of Informatica Data Quality within your environment
- A representative sample of data from your enterprise that has been processed by Informatica Data Quality.

## About Informatica

Informatica Corporation (Nasdaq:INFA) is the world's number one independent provider of data integration software. Organizations around the world rely on Informatica to realize their information potential and drive top business imperatives. Informatica Vibe, the industry's first and only embeddable virtual data machine (VDM), powers the unique "Map Once. Deploy Anywhere." capabilities of the Informatica Platform. Worldwide, over 5,000 enterprises depend on Informatica to fully leverage their information assets from devices to mobile to social to big data residing on-premise, in the Cloud and across social networks. For more information, call +1 650-385-5000 (1-800-653-3871 in the U.S.), or visit [www.informatica.com](http://www.informatica.com).
