

Proactive Monitoring for PowerCenter Baseline Deployment

Overview

Benefits

- Experienced guidance to accelerate deployment of Informatica PowerCenter Proactive Monitoring within your enterprise
- Knowledge transfer to enable a targeted quick start for customizing and extending the monitoring rule set

Typical Duration

- 1 Week

IPS Staff Level

- Senior Consultant

Accelerate the effective deployment of Informatica Complex Event Processing (CEP) and the PowerCenter Proactive Monitoring Starter-Kit in your enterprise with a Proactive Monitoring for PowerCenter Baseline Deployment engagement. You will benefit from the knowledge and experience of Informatica Professional Services in creating persistent, intelligent monitoring solutions that meet the ever-changing needs of an agile enterprise. By working closely with your staff to understand your monitoring needs we will be able to recommend appropriate strategies for your data integration architecture, CEP rule set and alerting architecture. This will aid your organization in quickly realizing the value in the PowerCenter Proactive Monitoring offering and begin the process of extending the solution to meet your unique monitoring and alerting requirements.
