Informatica grants Customer and Customer Affiliates a non-exclusive, non-transferable, worldwide right to authorize individuals solely within Customer's and Customer's Affiliates' organization ("Users") to access or exchange data via the Cloud Services during the Term (as defined in Section 7 below), but only for Customer's own internal business purposes and subject to the terms and conditions of this Agreement and terms associated with the specific Cloud Services contained in the Order and applicable schedule(s). Informatica is not responsible for web pages or servers that are not owned or controlled by Informatica, even if linked to (including via application programming interfaces) the Cloud Service. Informatica does not endorse any sites on the Internet that are linked through the Cloud Service; such links are provided to Customer and Customer's Users only as a convenience. In addition, certain third-party providers of ancillary software, hardware or services may require Customer's agreement to additional or different license or other terms prior to Customer's or Customer's Users' use of or access to such software, hardware or services. Cloud Services offerings may include a limited-use subscription to on-premise Software as described in the applicable schedule(s). Informatica grants to Customer, as part of and in support of its subscription to the applicable Cloud Service(s), a limited, non-exclusive, non-transferable, non-sublicensable right and license to use such Software strictly in accordance with the terms and limitations set forth in such Schedule(s) during the Term in support of the Cloud Service. All references to a Cloud Service herein include such associated Software and use of such Software must comply with the license grant herein. Under no circumstances may the Cloud Services be used for any illegal or illicit purpose in any geography where the Cloud Services are used. Customer must: (i) protect the secrecy of Customer's authorized user IDs and passwords; (ii) notify Informatica immediately of any unauthorized use of any user ID or password or any other known or suspected breach of security; and (iii) report to Informatica immediately and use reasonable efforts to stop any copying or distribution of content not authorized by Informatica. Customer agrees that anyone who inputs a valid user ID and password will be deemed an appropriate User unless and until Customer notifies Informatica otherwise in writing. Any individual User who has violated this Section may have its account suspended.

2. CUSTOMER'S RESTRICTIONS AND OBLIGATIONS

Use of the Cloud Service shall be limited to the terms and conditions set forth in the Schedule(s), as applicable, current at the time of licensing, a copy of which shall be made available to Customer upon request. Customer cannot make the Cloud Service available to unauthorized third parties. The Cloud Service may not be used for outsourcing or service bureau purposes or otherwise processing third party data for the benefit of any third party. Customer cannot relicense, rent or lease the Cloud Service for third-party training or commercial time-sharing. Customer agrees that Customer will not distribute, sell, sublicense, subcontract or otherwise transfer copies of or rights to the Cloud Service or any portion thereof, and shall not use the Cloud Service except as expressly permitted hereunder. No third-party software that is provided with the Cloud Service may be used independently from the Cloud Service. Unless otherwise mutually agreed in writing and except to the extent required to obtain interoperability with other independently created software or as specified by law, Customer agrees to not adapt, translate, reverse engineer, decompile or otherwise derive the source code for the Cloud Service or any of the related features of the Cloud Service or to allow third parties to do so. Customer cannot use the Cloud Service for benchmarking or other competitive purposes.

Support Services means, as applicable to Customer's order, access to Informatica's help desk and to updates, upgrades, patches and bug fixes. Informatica will provide the Support Services for the Cloud Service as set forth in the Order and the Informatica Global Customer Support Guide valid at the time of signature of the Order and available at <https://network.informatica.com/docs/DOC-3015>. Details of Support Guide may be modified from time to time but Informatica warrants to Customer that no such modification will materially degrade the Support Services.

4. PAYMENT OF FEES FOR SERVICE

Customer will pay all fees and charges for Cloud Services as per the applicable Order. Those fees will cover the Term in the Order unless otherwise specified in the Order. Customer will be billed shortly after contract execution for the first term of Cloud Services. In cases of a multi-year subscription, unless otherwise stated in the Order Informatica will invoice annually in advance of the Term anniversary. Fees for the subsequent years' renewals of the Cloud Services or the subscription based license will be invoiced annually approximately sixty (60) days prior to the start of each such annual subscription. All payment obligations for the entire multi-year Term are non-cancelable and non-contingent and all amounts paid are nonrefundable except in the context of a breach of the warranty provided in Section 6. Informatica may suspend the provision of Cloud Services in the event that any invoice remains unpaid in excess of thirty days. Each year within a specified term requires payment in exchange for the continued provision of Cloud Service. Quantities of Cloud Services may not be decreased during the relevant subscription term. Customer acknowledges and agrees that fees quoted in an Order are contingent upon the agreed upon length of the entire multi-year Term. These fees are not subject to early termination or cancellation and this obligation may not be waived and Informatica's right to collect these fees is absolute absent a material breach by Informatica of this Agreement that renders the Cloud Service unusable for the term at issue. Unless Customer elects to purchase an enhanced Support Service the subscription fee is inclusive of the Support Services on the subscription.
