Cloud Discovery

Benefits
- Confidence to embark on your journey to Cloud with the elimination of missteps
- Early identification of challenges, roadblocks, and unresolved issues, with recommendations for their resolution
- Assistance in understanding and scoping your Cloud integration and data management objectives

Typical duration
- 2 weeks

Adopting a cloud iPaaS platform can be challenging. The hardest part can sometimes be just getting started. With this package, Informatica Professional Services will help you understand what is involved in moving to the cloud, and help prepare you for that journey.

Our experienced Cloud consultants will work with you to understand your cloud integration needs, and will review your planned use of the components and features of the Informatica Intelligent Cloud Services iPaaS platform, with the goal of enabling success in your implementation.

The Discovery package is specifically tailored to assist you in understanding and scoping your integration and data management requirements in the context of an IICS deployment. The information and recommendations from this short engagement can also act as input to a subsequent delivery engagement with Informatica Professional Services or a Systems Integrator partner.

Areas of Focus
- Understand and validate planned deployment infrastructure and organization provisioning
- Work with customer architects and business personnel to identify required integrations
- Estimate effort to implement desired integrations and integration processes
- Understand and validate planned deployment infrastructure and organization provisioning
- Identify potential issues and recommend resolution or mitigation strategies

Key Program Deliverables / Details
- Inventory of Cloud integrations and touchpoints
  - Identification of integration sources and targets
  - Identification of batch and real time components of the solution
  - Identification of API-based or event-based integration needs

ABOUT INFORMATICA

Digital transformation is changing our world. As the leader in enterprise cloud data management, we're prepared to help you intelligently lead the way. To provide you with the foresight to become more agile, realize new growth opportunities or even invent new things. We invite you to explore all that Informatica has to offer—and unleash the power of data to drive your next intelligent disruption. Not just once, but again and again.

High-level estimates of scope:

- Estimates of deployment and configuration effort for IICS platform components
- Size and number of Cloud integrations
- Project staffing requirements
- High-level project timeline
