# MDM-Business 360 Strategy for CRM

**Kamal Abrol**  
*Customer Success Technologist*

Informatica™

# Housekeeping Tips

- Today's Webinar is scheduled for **1 hour**
- The session will include a webcast and then your questions will be answered live at the end of the presentation
- All dial-in participants will be muted to enable the speakers to present without interruption
- Questions can be submitted to "All Panelists" via the **Q&A option** and we will respond at the end of the presentation
- The webinar is **being recorded** and will be available to view on our **INFASupport YouTube channel** and **Success Portal**. The link will be emailed as well.
- Please take time to complete the **post-webinar survey** and provide your feedback and suggestions for upcoming topics.

# Agenda

Business challenges- CRM

Build effective Customer Data Strategy

How operationalizing MDM can accelerate your business processes

Use Case- Publish data from MDM to Salesforce

MDM integration with IICS-CAI

Live Accelerator Demo –MDM-Business 360 for CRM

## Cracks in the CRM solution

### ❖ Incomplete Archaic Data

### ❖ Fragmented info across apps

### ❖ Many Enterprise have multiple CRM's

### ❖ Duplicate or multiple Versions of same customer

### ❖ Mergers & Acquisition migration Gotcha

# CRM-What is getting in the way...

Why can't I get  
**clean and consistent**  
customer information?

Data quality problems cost U.S. businesses more than  
**\$600 billion a year.**

Source: TDWI

Why can't I see our  
**customers' total**  
**relationship** with the  
company?

**95% of enterprise data is**  
**unusable** because it's not integrated.

Source: Forrester

Why can't I access **all**  
**customer transactions**  
**and interactions?**

Median Fortune 1000 company could  
**boost revenue by \$2.01B** by  
increasing data usability 10%.

Source: University of Texas

# Valuable information changes and degrades....

5,769 people  
change jobs

2,748 people  
change address

515 people  
get married

263 people  
get divorced

186 people  
declare  
bankruptcy

112  
executives  
change jobs

240 companies  
change addresses

150 companies  
change numbers

12 companies  
open their doors

20 companies  
close their doors

4 companies  
change names

Business challenges- CRM

Build effective Customer Data Strategy

How operationalizing MDM can accelerate your business processes

Use Case- Publishing data from MDM to Salesforce

MDM integration with IICS-CAI

Live Accelerator Demo –MDM-Business 360 for CRM

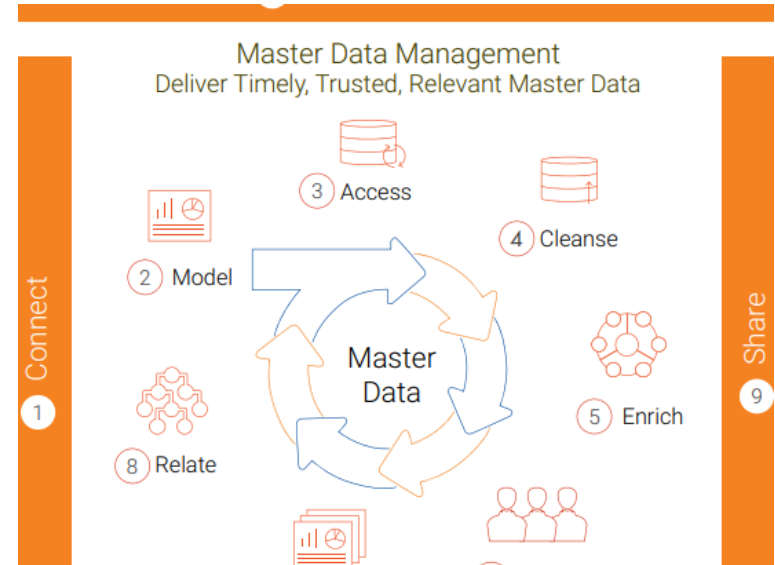

# CRM+MDM Strategy

## Advantages of CRM & MDM Strategy

- MDM provides a trusted CRM environment
- MDM consolidates and provides the best of breed data
- Customer information that is reliable
- MDM improves the overall Data Quality of the CRM
- MDM provides Hierarchy management and integration into CRM

## Fuel CRM with Trusted Data Insights- Informatica MDM

Business challenges- CRM

Build effective Customer Data Strategy

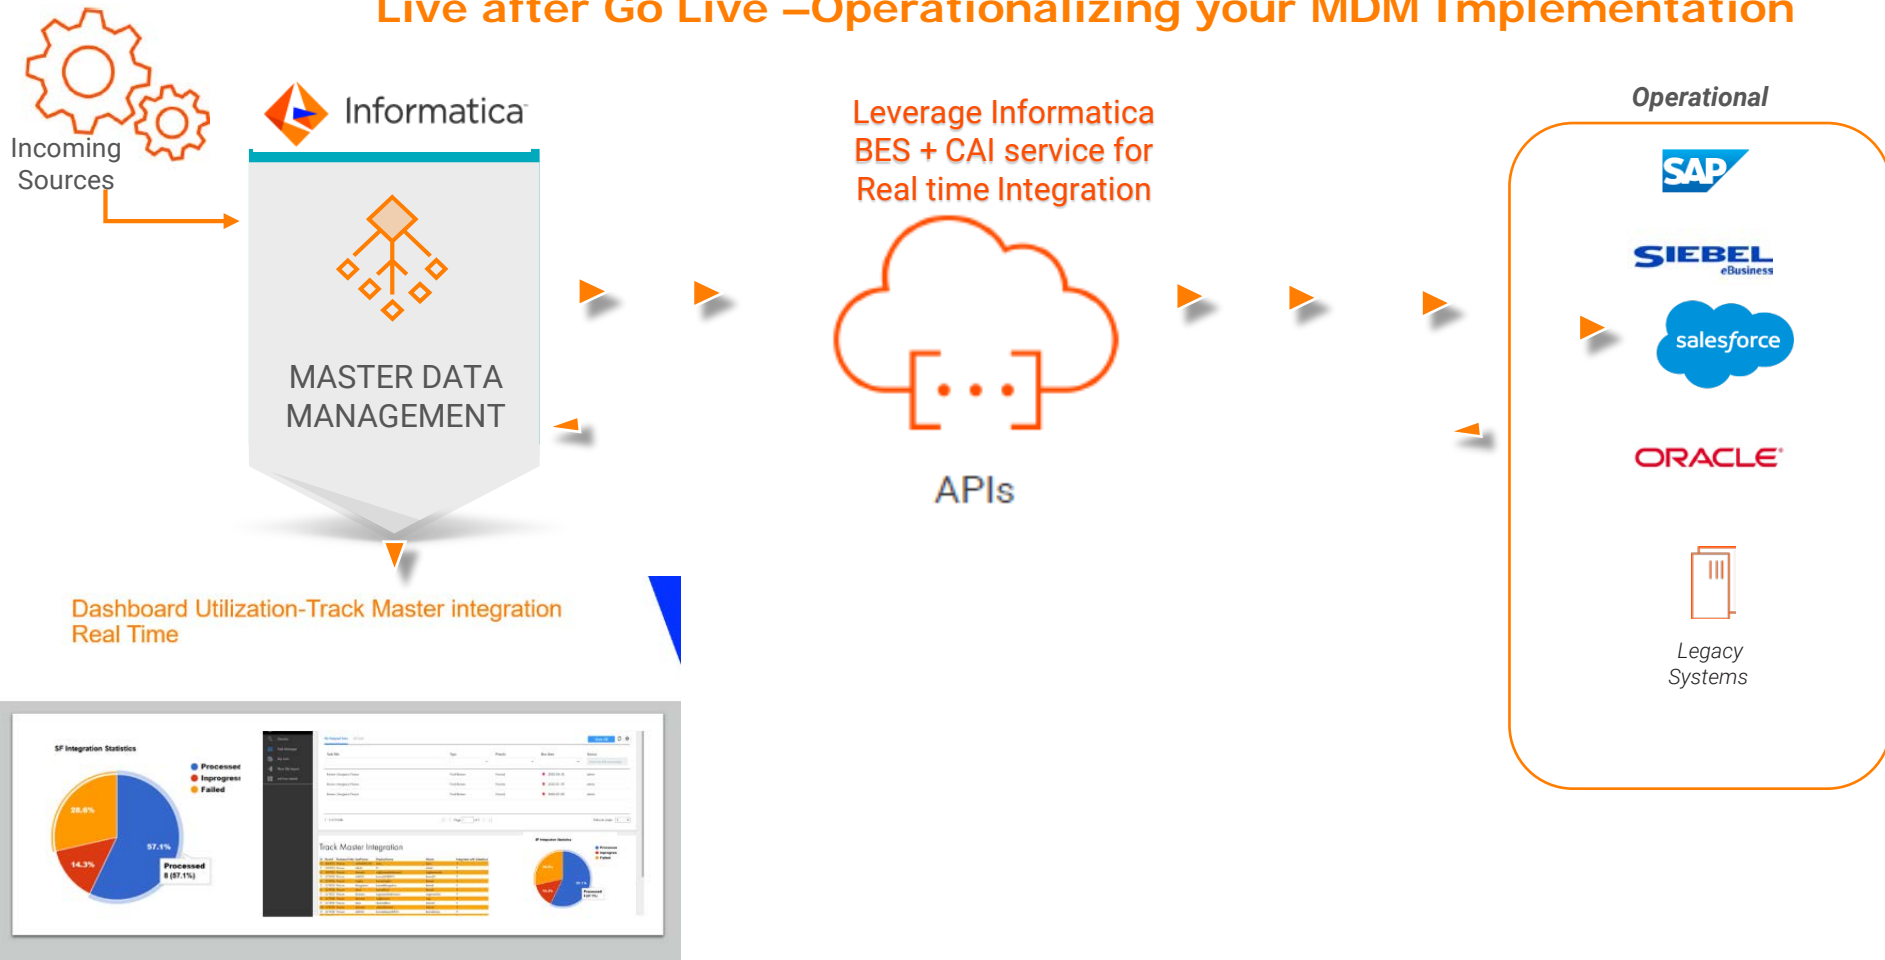

How operationalizing MDM can accelerate your business processes

Use Case- Publishing data from MDM to Salesforce

MDM integration with IICS-CAI

Live Accelerator Demo –MDM-Business 360 for CRM

# Live after Go Live –Operationalizing your MDM Implementation

## Operationalizing your MDM Implementation(Cont)

- **Maximize extensibility to new applications(CRM's) & data sources**

Onboard more data sources(CRM's) which can be integrated with MDM and “best of breeds” consolidated data can finally be pushed to downstream applications for trusted insights

- **Customer Experience**

Determine next best action for customers delivering state of art experience from consolidated accurate data obtained from multiple CRM's and on demand accessible via BES Api's.

- **Achieve high ROI in early phases**

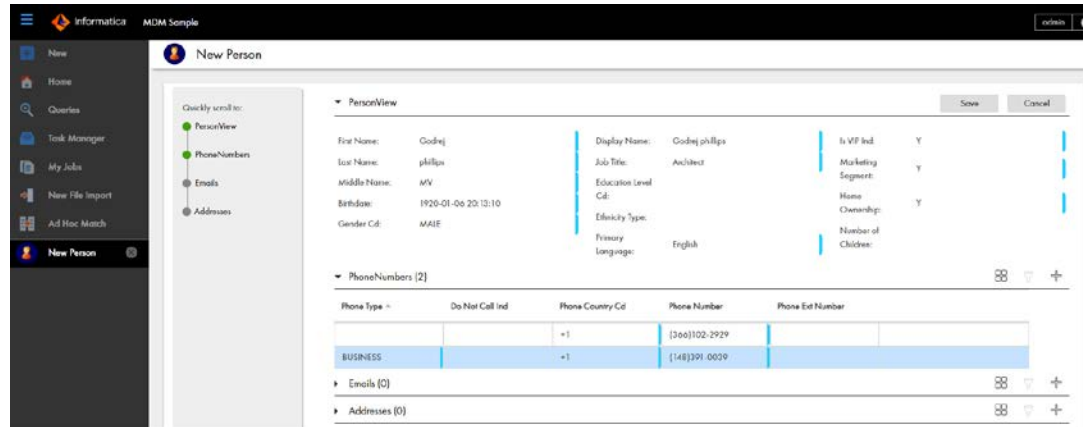

Continuous outbound integration with MDM ensures its everlasting stickiness by maintaining best of breed data from multiple sources and can be used to fuel analytics on demand and deliver trusted data to right executives at right time.

# Demo

Informatica™

# Use Case- MDM Real time integration with Salesforce

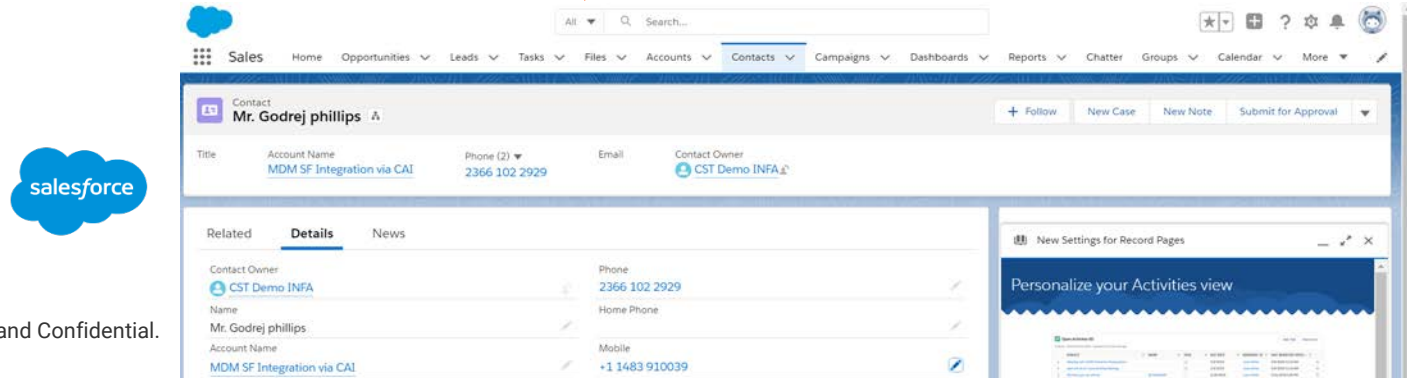

The screenshot shows the Informatica MDM Sample application's 'New Person' form. The left sidebar contains navigation links: New, Home, Queries, Task Manager, My Jobs, New File Import, Ad Hoc Match, and New Person. The main area is titled 'New Person' and includes a 'PersonView' section with fields for First Name (Godrej), Last Name (phillips), Middle Name (MN), Birthdate (1920-01-06 20:13:10), Gender Cd (MALE), Display Name (Godrej phillips), Job Title (Architect), Education Level Cd, Entity Type, Primary Language (English), Is VP Ind (Y), Marketing Segment (Y), Home Ownership (Y), and Number of Children. Below this is a 'PhoneNumbers (2)' section with a table:

Phone Type	Do Not Call Ind	Phone Country Cd	Phone Number	Phone Ext Number
		+1	(360)102-2929	
BUSINESS		+1	(148)391-0039	

There are also sections for 'Emails (0)' and 'Addresses (0)'.

API- Business Entity Services

The screenshot shows the Salesforce interface for a contact named 'Mr. Godrej phillips'. The top navigation bar includes links for Sales, Home, Opportunities, Leads, Tasks, Files, Accounts, Contacts, Campaigns, Dashboards, Reports, Chatter, Groups, Calendar, and More. The contact details section shows the following information:

- Title: Account Name
- Account Name: MDM SF Integration via CAI
- Phone (2): 2366 102 2929
- Email: CST Demo INFA
- Contact Owner: CST Demo INFA

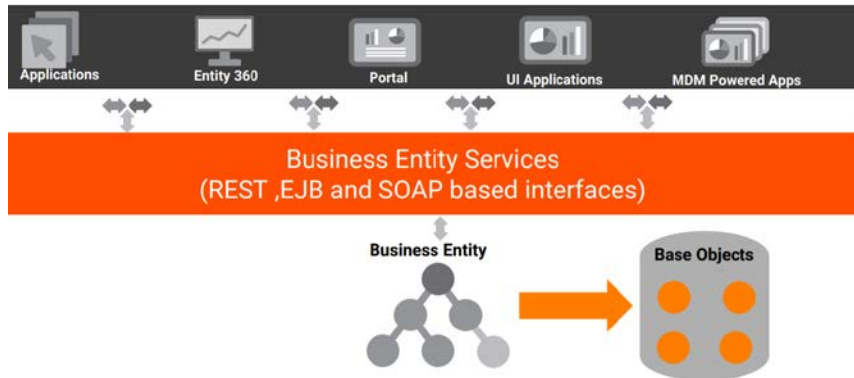

The 'Details' tab is selected, showing related information:

- Contact Owner: CST Demo INFA
- Name: Mr. Godrej phillips
- Account Name: MDM SF Integration via CAI
- Phone: 2366 102 2929
- Home Phone: 1483 910039
- Mobile: 1483 910039

A sidebar on the right shows 'New Settings for Record Pages' and 'Personalize your Activities view'.

# IICS CAI based Integration

# OAuth based Authentication mechanism

The screenshot shows the Informatica Application Integration console for a Salesforce-OAuth2 connection. The interface includes a top navigation bar with the Informatica logo, a sidebar with various tool icons, and a main configuration area. The configuration area has tabs for Properties, Event Sources, Event Targets, and Metadata. The Properties tab is active, showing a 'Connection Test' section with radio buttons for 'OData-Enabled' (No) and 'OData Cloud Access Enabled' (Yes). Below this are input fields for 'Allowed Users for OData' and 'Allowed Groups for OData'. The 'Authentication' section shows 'Authentication Type' set to 'OAuth'. A table at the bottom lists configuration parameters: Authorization URL, Token Request URL, Session Duration, Authorization Status, and Authorize Access. The 'Authorization Status' is 'Authorized' with a timestamp. The 'Authorize Access' section has an 'Authorize' button.

Informatica Application Integration

Salesforce-OAuth2 Valid

Save Test

Properties Event Sources Event Targets Metadata

Connection Test:

OData-Enabled: ☒ No ☐ Yes

OData Cloud Access Enabled: ☐ No ☒ Yes

Allowed Users for OData:

Allowed Groups for OData:

**Authentication:**

Authentication Type:

Name	Value	Description
Authorization URL:*	<input type="text" value="https://login.salesforce.com/services/oauth2/authorize"/>	Enter the Salesforce OAuth authorization URL. Default value for production is https://login.salesforce.com/services/oauth2/authorize. For Sandbox, use https://test.salesforce.com/services/oauth2/authorize.
Token Request URL:*	<input type="text" value="https://login.salesforce.com/services/oauth2/token"/>	Enter the OAuth token request URL. For production, use https://login.salesforce.com/services/oauth2/token. For sandbox, use https://test.salesforce.com/services/oauth2/token.
Session Duration:	<input type="text" value="60"/>	Enter the number of minutes to wait before refreshing the session. Default is 60 minutes.
Authorization Status:	Authorized The last update was by rkinnera_inicscst01 on 2020-07-17 17:11.	Indicates the current status and the last time that authorization was completed.
Authorize Access:	<input type="button" value="Authorize"/>	Click to initiate the authorization workflow using OAuth.
